Professional Experience

GSMS **| Pricing & Market Analytics Manager** | Aug 2025 – **Present** | Camarillo, CA
Commercial Analytics Lead | May 2023 – July 2025
Senior Marketing Analyst | Aug 2022 – Apr 2023
Marketing Analyst | **Oct 2020** – Aug 2022

Company Description: *GSMS is* ***the largest government pharmaceutical supplier****, acting as a commercial and pricing partner to 100+ pharmaceutical manufacturers.*

Role Evolution: *Progressed through increasing levels of responsibility in pricing strategy, commercial analytics, portfolio optimization, and reporting across a large portfolio. Acted as the pricing subject matter expert for ~5 years and* ***led the pricing function for ~4 years****.*

Commercial Product Strategy, Portfolio & Pricing Leadership

- **Enterprise Pricing & Portfolio Ownership** – Lead pricing strategy and portfolio analytics for a large government-focused pharmaceutical business, supporting competitive positioning, profitability, and product lifecycle decisions.
- **Revenue Growth & Profitability Success** - Developed pricing and market strategies that improved portfolio profitability and supported sustainable commercial growth.
- **Product Lifecycle & Market Strategy** – Developed strategies using competitive reference pricing, market erosion analysis to optimize long-term commercial performance.
- **Cross-Departmental Strategic Leadership** – Led weekly pricing and profitability portfolio meetings for 5 years, aligning Finance, Business Development, Sales, Sales Ops, and Contracts.
- **Pipeline Generation** - Identified and evaluated commercial growth opportunities through ROI modeling, competitive analysis, and market segmentation.
- **Erosion Forecasting & Planning** – Owned pricing, margin, and erosion forecasting, including scenario planning to support annual operating plans, executive reviews, and in-year course correction decisions.
- **Process Optimization**– Improved more than 30 business processes and received the company's inaugural Process Improvement Award for a high-impact operational initiative.

Commercial Analytics & Insights Leadership

- **Dashboard & Reporting Design**– Led development and ownership of 10+ Power BI self-service analytics tools used daily across Commercial to identify trends, inform strategy, and track performance.

- **Integrated Secondary Data Analytics** – Designed and delivered the company's first integrated commercial and government analytics dataset by blending IQVIA and federal pricing data using Power BI and SQL, creating a top 5 enterprise reporting product used for 18+ months to support pricing strategy, portfolio optimization, and executive decision-making.
- **Pipeline Automation & Efficiency Gains -** Automated pricing workflows, reducing manual processing time by weeks and improving operational efficiency.
- **Data Integration & External Intelligence Automation –** Partnered with IT and data engineering teams to integrate 7 data sources and 3+ APIs into commercial analytics workflows. Built Python-based web scraping and external data acquisition processes supporting competitive intelligence and government pricing strategy.
- **Price Elasticity Modeling** – Built regression-based pricing models using Python and SQL to evaluate price sensitivity and inform revenue optimization strategies.

Strategic & Executive Initiatives

- **Enterprise Market Entry & Capital Investment–** Led a six-department charter for entry into a tightly regulated, high barrier pharmaceutical market. Developed financial forecasts and regulatory risk assessments to support executive decision-making for a multi-million-dollar capital investment.
- **M&A / Transaction Diligence –** Served as the primary commercial data liaison and Commercial SME during the company's PE acquisition, leading market analyses, preparing diligence materials, and working with investment bankers to address buyer diligence.
- **AI & Technology Strategy** – Serve as one of two commercial representatives on a VP-level enterprise AI strategy group, shaping company-wide roadmap priorities across Commercial, Operations, Data Governance, and AI education. Partner with external AI consultants to define high-impact use cases, guide solution design, and advance a pilot AI solution from an internally developed process.
- **Supporting Executive Negotiations** – Led analytics efforts across 7 managers and analysts to support wholesaler negotiations, resulting in improved government positioning and pricing outcomes.

Team Leadership

- **Team Leadership & Talent Development** - Built and led a pricing analytics team, hiring, onboarding, and mentoring 6 analysts, while establishing performance standards and development plans.
- **Operational Efficiency & Capacity Management** - Improved analyst turnaround time by ~60% through workload prioritization systems, process optimization, and schedule management.
